THE POWER OF NATURE IN THE SERVICE OF BEAUTY

WHO WE ARE

Naturalis is an Italian company that develops and produces innovative and effective active ingredients for personal care and dermo-cosmetics, thanks to a team of biologists and chemists coming from pharmaceutical industry and university centers.

professional skill and passion for nature and cosmetic sciences inspire the research & development of Naturalis and allow it to offer active ingredients with proven efficacy

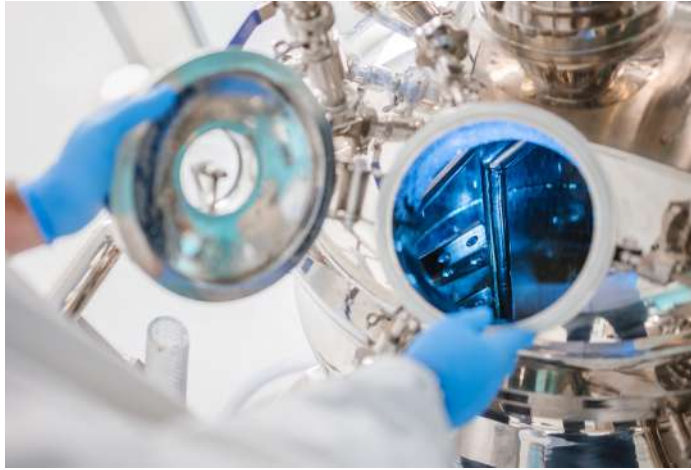

WHAT WE DO

Naturalis gets inspired by nature and transforms highly purified natural molecules into technological products specific to cosmetic and pharmaceutical industries.

Naturalis makes use of the most modern equipment for R&D and manufacturing processes in terms of quality and safety.

In Naturalis' laboratories, hundreds of plants, coming from all over the world, are analyzed to identify and characterize the biologically active molecules.

Advanced extraction, purification, and concentration processes allow us to isolate the most biologically pure molecules and actives.

NIOSOME AS CARRIER FOR COSMECEUTICALS

The active molecules are encapsulated inside special elastic vesicles, made of special Polyglycerol esters, working as a "CARRIER" and known as "NIOSOME".

Its ability to improve skin bioavailability and the stability of trapped molecules ensure effective active ingredients able to satisfy the needs of the most exigent demands.

OUR VALUES AND SOCIAL RESPONSIBILITY

The aim of Naturalis is, since ever, to guarantee innovation, quality, and safety to its customers, offering effective solutions that are the result of the balanced combination of nature and science.

Naturalis is inspired by the highest ethical principles aimed at respecting nature and the environment and supports, whenever possible, markets that adhere to fairness principles.

Cosmetic applications 22

Niosome Technology

Nio-Series

Niosome, the Most Advanced Skincare Delivery System, is made of **Ultra-Deformable vesicles that squeeze between corneocyte and reach live epidermis to improve bio-availability inside the skin.**

For exclusive and unique formulations that need superior efficacy, we provide active ingredients encapsulated inside the skincare “carrier” known as NIOSOME.

Nio-Derm Series

This new series of active ingredients based on niosome technology has been specially developed and designed for **dermocosmetic formulations.**

Thanks to a higher concentration of active ingredients, the **NIO-DERM series** is able to respond more effectively to skin issues such as acne, inflammation and wound healing.

Cosmetic Benefits

- Enhanced Bioavailability
- Extended Effective Time
- Controlled Release
- Highest Skin Tolerability
- Maximized Cosmetic Efficacy

Formulation Features

- No Special Requirements for Formulation
- Self Preservative
- Stable at Wide pH Range
- Solvent-Free
- PEG-free

Plante Extractive Technology

Phytocomplex

Phytocomplex are natural active ingredients able to guarantee real and documented hair and skin benefit.

These ingredients are designed in **full respect of the environment** and guarantee the safety and effectiveness of natural cosmetic formulations. Thanks to **Ultrasonic-Assisted Extraction** we can offer active ingredients of the highest quality and purity

Vegemilk

Vege-Milks are reconstituted and stabilized plant milks that **mimic the healthy properties of vegetal milks**, excellent source of fatty acids, minerals and vitamins.

In VegeMilks, water-soluble and oil-soluble components of plants are combined in a fluid gentle and milky-like nano-emulsion that maintain some of the properties of the original plant milk without solvents or ethoxylated surfactants

Marine Active Series

Marine organisms are among the **richest natural sources of bioactive components**, and their extracts are a valuable aid to skin health on many levels.

Naturalis has collected unique **seaweeds** with high biological potential in the pure and pristine sea surrounding the **Azores Islands**.

Cosmetic Benefits

- Natural Multifunctional Ingredient
- Widely versatile actives
- high quality and purity of active ingredients

Formulation Features

- Soluble in wather phase
- Usable with any pH value
- Non Toxic & Non Irritant

Cosmetic Benefits

- Excellent Source of Plant Fatty Acids
- Complete Skin Nourishment
- No Solvent Used
- No Ethoxylated surfactants

Formulation Features

- Ready-to-use Stabilized Oil Ingredients
- Milky-like Emulsion
- Stable at High Temperature

Cosmetic Benefits

- Exclusive Marine Molecules
- Complete Algae Bioactives
- Naturally Harvested

Formulation Features

- Ready-to-Use Seaweed Extract
- Odourless
- Stable at Wide Range of pH & Temperature
- Excellent Skin Feel

Plante Extractive Technology

Anacryn

ANACRYN slows down excessive hair loss, **stimulates hair regrowth**, protects hair bulb and improves its strength.

ANACRYN **retards the process of hair loss** and improves hair and scalp health by:

- Reducing the initiation time of hair growth
- Reducing the completion time of hair growth
- **Increasing the anagenic population (+50%)**

Lema 14-A

Naturalis developed **LEMA-14A** as a **plant-based multifunctional ingredient** from Magnolia Bark, effective as antimicrobial, anti-inflammation, anti-oxidant and anti-ageing ingredient in a liquid form easy to use.

LEMA-14A is also ideal for **oral care** as an anti-plaque and **deodorants**.

It is suitable as a **natural and biodegradable preservative** for cosmetic formulations.

Prebiotic Solutions

PREBIOS-C and **REGENHAIR** are two prebiotics ingredients developed for the wellness of the skin and scalp.

They have the capacity to **optimise, maintain and restore** the **microbiota** of the skin and scalp increasing selectively the activity and growth of beneficial 'normal' skin microbiota.

Cosmetic Benefits

- All Natural Ingredients
- No Solvent Used
- No Ethoxylated surfactants

Formulation Features

- Ready-to-use Stabilized Ingredient
- Stable at High Temperature

Cosmetic Benefits

- Natural Multifunctional Ingredient
- Effective Against Gram+/-, Yeast and Mould
- Anti-inflammatory
- Anti-oxidant
- Anti-lipid peroxidation

Formulation Features

- Resistant to Hydrolysis
- Good Compatibility with Anionic and Non-Ionic Sufactants
- Biodegradable 100%

Cosmetic Benefits

- Restore a healthy microbiome balance
- Anti-inflammatory action
- Improves the appearance of the skin

Formulation Features

- Soluble in water
- Natural ingredient
- 100% biodegradable
- Compatible with any cosmetic ingredient

Biopolymer Technology

Urban Stop

Innovative active whose action is aimed at **protecting the skin from damage caused by pollution.**

URBAN STOP creates a protective film on the skin capable of reducing the adhesion and accumulation of **airborne particulate PM 2.5** (responsible for premature skin ageing and other pathologies)

Liftonyl

Liftonyl is an ideal ingredient to combat crow's feet and strengthen the skin barrier of mature skin.

It is based on a combination of solvent-free acerola pulp extract and pullulan.

The antioxidants and bioflavonoids of the **Acerola** fruit extract help prevent the onset of signs of ageing, while the biopolymer **Pullulan** adapts perfectly to the skin, providing a smoothing and lifting effect.

Cuticlex

Cuticlex is a revolutionary active ingredient based on **two biopolymers of natural origin** designed to optimally **moisturise** hair and improve its **shine, softness, and volume.**

It also gives **protection** to hair subject to stress, **reinvigorating** it and improving its **resistance** to breakage.

Cosmetic Benefits

- Multi action function on the skin
- Physical Barrier to Pollution
- Non-Occlusive Film

Formulation Features

- Biodegradable & Ecofriendly
- Non Toxic & Non Irritant
- Improve Lotion and Cream Texture
- Transparent Film-forming Polymer

Cosmetic Benefits

- Immediate skin lifting effect
- Effective on mature skin
- Natural Multifunctional Ingredient
- Non-Occlusive Film

Formulation Features

- Soluble in water phase
- Non Toxic & Non Irritant
- Transparent Film-forming Polymer
- Biodegradable & Ecofriendly

Cosmetic Benefits

- Multi action function on the skin
- Physical Barrier to Pollution
- Non-Occlusive Film

Formulation Features

- Biodegradable & Ecofriendly
- Non Toxic & Non Irritant
- Improve Lotion and Cream Texture
- Transparent Film-forming Polymer

	NIO-KIOL	NIO-SENSYL
Product description	For Protection of Skin Against Irritation, Dryness and Mitigation of Sensitive and Reactive Skin. Active capable of reducing skin redness and irritation by decreasing the activity of pro-inflammatory enzymes.	The Natural Solution to Reinforce Skin Barrier and Mitigate Skin Hyper-Reactivity to External Stimuli. It strengthens the skin barrier by reducing the skin's hyperactivity to external stress typical of sensitive skin (urticaria, eczema and rosacea).
Ingredient	<ul style="list-style-type: none"> • Salicin • Magnolol/Honokiol 	<ul style="list-style-type: none"> • Garcinia mangostana fruit extract • Zinc-enriched yeast extract • Magnolol/Honokiol
