

# INTENSIVE LIP MOISTURIZING VOLUMIZER

Intensive Lip Moisturizing volumizer is a lip balm (waterless formulation) containing high amount of 5kDa hyaluronic acid. By elaborate physical treatment, Hyaluronic acid is stably dispersed into wax type to apply typical water soluble active; HA into anhydrous formulation with better texture.

## HyalWax

- Perfect suggestion for waterless formulation
- Respect the Sustainability trend
- Contains 20% of 5kDa small molecular weight of Hyaluronic
- Makes a film on the skin surface while hyaluronic acid absorbed deeply into skin for cell regeneration
- Improved texture is confirmed by Blind test
- Clinically proven moisture content increase
- Clinically proven lip surface texture improve
- Clinically proven lip volume increase
