## A NATURAL & SUSTAINABLE EXFOLIATOR MADE FROM UNUSED OLIVE STONES

Olive CRUSH™ is a gentle exfoliating powder made from leftover olive pits. The particles provide a method of mild exfoliation, helping to remove dead skin cells without irritating the skin.

## Upcycled Olives

The production of olive oil results in pure, clean olive pit granules which - when crushed - create a fantastic exfoliant for personal care. To produce olive oil, the olive is compressed as a whole, resulting in de-oiled cake which is then processed by specialised machines.

As part of a centrifugation process, olive pit fragments are separated from the pulp and subsequently cleaned, dried and screened based on their particle sizes. The result is a light beige powder which is then milled to produce ultra-fine grades.

## Purely Upcycled

1KG OLIVE CRUSH™  
CONTAINS

**1,500**

OLIVE STONES WHICH  
WOULD HAVE OTHERWISE  
GONE TO WASTE

## Grades

	PARTICLE SIZE	APPEARANCE	APPLICATION	
<b>MICRO</b>	0 - 300 (µm)	Ultra-fine particles, light yellow/beige	Facial polish	

## Info

INCI Name: 100% Olea Europaea Seed Powder  
Plant Part: Olive pit  
Country of Origin: Spain  
Natural: Yes  
Ecocert: Certifiable  
REACH: The substance is in compliance with REACH EC 1907/2006  
Preservatives: None

Solvents Used: None  
Solubility: Non soluble  
Suggested Use Levels: 0.5 - 30%
