

ParaNatural™ Olive Powder Series

INCI: Olea Europaea (Olive) Seed Powder

Oct 2014

ParaNatural™ Olive Powder is a unique effective exfoliant naturally derived from the seeds of the olive. Olive trees originate in the Mediterranean basin and some have survived for over 8,000 years. As the most important oil-producing plant in the world the olive tree and its leaves have long been recognized as a symbol for both peace and victory.

The olive fruit, leaves, oil and seeds of olive trees have been employed for many uses over the centuries. Olive oil is steeped in traditional use in creams and lotions with evidence of its use dating to ancient times. The most recent use proposed is for the seeds of the olive for exfoliation.

▶ **Olives are naturally pest resistant and GMO free.**

Description: Light to dark brown free flowing powder. Aroma characteristic of olive. No preservatives, additives or solvents used in the processing of this product.

100% Natural. 100% Biodegradable.

Suggested Use: For face in the smaller particle size, and body and foot in the larger particle size. Use in liquid and bar soaps, face wash, body scrubs and foot scrubs.
