CAS No:	1318-93-0	NMPA REGISTRATION:	003264-07282-2128 (Canadian Colloidal Clay) 002741-07282-1225 (SEA SILT)
EINECS No:	215-288-5	HS TARIFF NUMBER:	2508.40.01.50
COMPOSITION:	100% GLACIAL BAY MARINE CLAY	PHYSICAL STATE:	POWDER
COLOUR:	GREEN/GREY	ODOUR:	MILD CHARACTERISTIC ODOUR
PRODUCT GRADE:	COSMETIC GRADE	pH:	5.8 - 7.2
PRODUCT USE:	Product can be used as in skin care, body care and personal care applications at a use level of 2 to 100%.		

Our unique and rare deposits of glacial marine clay are unlike any other as they are located beneath a live and active glacier, rather than in an area where glaciers existed tens of thousands of years ago. Over time, the erosion and glacial run off carry vast deposits of precious minerals down river to settle in the estuaries along the Coastal Region of British Columbia.

MANUFACTURING PROCESS:

Hand harvested from natural deposits, solar dried, powdered, with no additives.

It is very important to us to keep our practice as environmentally responsible as possible.

PACKAGING, STORAGE, SHELF LIFE

The clay is packaged in 10 kg boxes in a food grade plastic liner.

For proper storage, boxes should be kept in a cool, dry place with liners tightly sealed.

Shelf life is 3 years from date of manufacture.

ADDITIONAL INFORMATION:

This information is provided for documentation purposes only. This product is not considered hazardous, has no heavy metals or pesticides.

The complete range of conditions and methods of use are beyond our control. Therefore, we do not assume any responsibility and expressly disclaim any liability for any use of this product.
